EXPERIENCE

UX Designer | Vizard

06/11/2025 - Present | 3101 Park Blvd, Palo Alto, CA 94306

- Designed AI Video Agent user experiences for content creators, agencies, and small businesses, supporting AI-powered video generation and editing workflows. Led end-to-end product design across web platforms, including user research, interaction design, prototyping, usability testing, and collaboration with cross-functional teams.
- Led key projects including redesigning the video editor upload flow, AI processing experience, video templates, and website interfaces to reduce user friction and improve usability.
- Designed AI-assisted workflows that enable users to upload long-form content and automatically generate short-form clips with features such as AI clip detection, caption generation, and content optimization, improving workflow efficiency and overall product experience.

UX Designer | MomsinLA

09/20/2024 to 06/30/2025 | Los Angeles, CA

Designed and implemented an enhanced onboarding process and a referral rewards program integrated with a user wallet for Mamaland, an educational app for children's extracurricular activities, resulting in an 18% increase in customer acquisition.

UX Designer | SpeedyJob

05/01/2024 - 05/30/2025 | Remote

Led the end-to-end design of a 0-to-1 AI-powered resume platform, including visual assets, design system, and product requirement documentation. Delivered wire-frames, prototypes, and a scalable design library to improve usability.

Product Designer | Tang Ning Medical Technology

01/09/2021 - 03/31/2022 | Shanghai, China

Initiated Healthloop, a telemedicine app for chronic disease patients during the pandemic, conducting user research, and creating over 40 wireframes, prototypes, and 60+ responsive elements for the design system.

Product Designer Co-op | Wayfair

01/06/2020 - 06/30/2020 | Boston, MA

Redesigned the Patient Perk Shipping feature on the eCommerce checkout and shipping page by conducting 16 competitor analyses and multiple design iterations. Implemented incentive rewards to address pandemic-related delays, resulting in a 14% increase in conversion rates.
